Deadline Details

Early Action: Usually sometime in between October and December, Non-binding

Early Decision: Binding, you can only apply to one school early decision

Regular Decision: A college has a specific deadline by which all application must be completed. All of the applications are evaluated, all decisions made, and notification letters are then mailed to applicants

Rolling: A college will make its admission decision soon after an application is completed. Decisions are released on a “rolling” basis and usually until they have met their class goals.

A college can offer several of these deadline options; however, there can sometimes be benefits to each!

WRITING

PERSONAL ESSAY

Describe a place or environment where you are perfectly content. What do you do or experience there, and why is it meaningful to you?

This essay topic is the whole reason I am applying to this university. New Hampshire is my favorite place on earth and is somewhere I would love to live for a prolonged period of time. After visiting New Hampshire every year since I was young, it is undoubtedly one of my favorite places to go. Aside from being just a beautiful place, there is so much to do there and the people there are really nice. I also have family that lives in New Hampshire to keep me company and help me out if I do end up going to college at UNH. My mother lived in New Hampshire when she was young, along with numerous family friends and other relatives. The only problem is that I have never stayed for longer than a week in New Hampshire, so I don't really know what it is like to live there permanently. I would love to go skiing, snowboarding, snowmobiling, or even go to a UNH hockey game. The weather is also favorable for someone who enjoys a midsummer snow in the winter. I personally am a huge hockey fan, so with the Boston Garden not too far away, it makes for a perfect place for me to fill my need for a hockey game every once in a while. New Hampshire is just a beautiful and fun place to live through and through, whether I'm just visiting, or staying long term.

2015-2016 Common App Essay Prompts

1. Some students have a background, identity, interest, or talent that is so meaningful they believe their application would be incomplete without it. If this sounds like you, then please share your story.
2. The lessons we take from failure can be fundamental to later success. Recount an incident or time when you experienced failure. How did it affect you, and what did you learn from the experience?
3. Reflect on a time when you challenged a belief or idea. What prompted you to act? Would you make the same decision again?
4. Describe a problem you've solved or a problem you'd like to solve. It can be an intellectual challenge, a research query, an ethical dilemma-anything that is of personal importance, no matter the scale. Explain its significance to you and what steps you took or could be taken to identify a solution.
5. Discuss an accomplishment or event, formal or informal, that marked your transition from childhood to adulthood within your culture, community, or family.
